Science Fair: The Einstein Academy Science Fair will be held on Friday, April 29th. Participation in the science fair is mandatory for all students 4th grade through high school. Students in grades PreK through 3rd grade are invited to participate if they are interested. Packets were sent home with your child today, additional packets are available at the front office.

Guest Speakers: Students in grades 7 through 12 were treated to career talks from two vastly different speakers this week: Larry Olson is a forensic chemist who works as a document examiner for the IRS; he talked to us about the work he does analyzing ink, paper composition and handwriting on various financial documents; Dr. Cynthia Steimle is a cardiac and thoracic surgeon who discussed her path to success and showed us, first hand, some of the work she does. Thank you, speakers! If you think your profession might be interesting to our students and would like to speak to us for an hour or so, please contact Mr. Savage.

Einstein Summer Camps: As we prepare our Summer camp list, we are interested in feedback from our Einstein families, what type of classes you are interested in. Please contact the front office with any suggestions or recommendations. As always we are customizing the summer camps to meet the individual needs of our school families and students.
